Vulnerability Management As a Service (VMaaS)

🛐 Threatscape

SecurityHQ

Whether it be new technology, systems, people or processes, your business is continually growing. Growth is positive. However, as your organisation develops, the more vulnerable it becomes.

Businesses have a Patch Management problem, and their in-house vulnerability management systems lack discipline, are financially intensive and lack comprehensive and accurate visibility of vulnerability and compliance posture.

SecurityHQ's Vulnerability Management as a Service (VMaaS) goes several steps ahead of standard vulnerability management programs, by ensuring that organisations accurately detect, classify, and contextualise vulnerabilities, with designed & prioritised remediation programs, for full-proof vulnerability, compliance, and patch management.

VMaaS is delivered 24/7 by our certified security analysts, and leverages powerful technology, including Qualys and Tenable, and our leading Incident Management & Analytics Platform, SHQ Response.

Smart Scanning with Risk Prioritisation

SecurityHQ removes the complexity, and maintenance responsibility, by delivering comprehensive and effective scanning on a scheduled and continuous basis.

Our Smart Scanning is complimented by rapid response from our certified analysts, who examine the scan results to provide quick advice on prioritised remediation activities.

Benefits

- Auditable collaboration, precise and applicable synopsis and carefully crafted reports.
- Dedicated Vulnerability Management Team, avail able 24/7.
- Accurate Prioritisation by identifying key areas of concern, therefore reducing recovery time for remediation.
- Identify and map your businesses risk-level to cyber threats.
- Round-the-clock support for scheduling, monitoring, analysis & reporting of scanning activities.
- Visibility to Stakeholders by highlighting your businesses attitude towards cyber security.
- Monthly Prioritised Remediation Reports.
- Access to SecurityHQ Labs and Threat Intel Advisories.
- Realise ROI by unleashing the full potential of your technology investments by maintaining a healthy cyber security posture.

Service Features

Expert Analysts

With Industry best certifications OSCP, GPEN, GWAPT, CEH and more.

Round-the-Clock Support

24/7 support for Scheduling, Monitoring, Analysis & Reporting of scanning activities.

Prioritise your risks by identifying key areas of concern, therefore reducing recovery time for remediation.

SHQ Response

Zero Complexity, Low Maintenance

We supplement your team and maintain systems, to keep things simple for you.

Bespoke services tailored to the needs of the customer or partner.

Flexible schedule to define 'Patch Days' as per your business convenience.

Bi-Weekly Reporting & Monthly Meetings

Get the complete picture from our certified analysts who illuminate risks, incidents and recommend security posture enhancements.

Service powered by Qualys and Tenable & SHQ Response.

Continuous Governance Model

Embed a continuous governance model to ensure improvement.

SecurityHQ provides collaboration between the security tooling of Qualys and Tenable, IT security teams, and the analyst team, for performing vulnerability management, and communicating remediation measures. We recognise the requirement to integrate with third party ticketing tools to support customer IT Service Management processes and expose API's for integration with all leading ticketing tools.

Analytics & Visualizations

Highly actionable and meaningful reports to help with risk prioritization and mitigation.

Common Customer Challenges and How We Solve Them

A lack of Visibility and awareness.	By visualising risky behaviour and misconfigurations, target the threat at its source, for Complete Visibility & Peace of Mind .
Cost and Risk Reduction.	Likelihood of a breach is reduced & 24/7 Detect & Response delivered at a fraction of the cost of DIY.
Peace of mind Assurance.	The Capacity and Capability to deliver bespoke services at scale, via combined threat intelligence and human expertise.
A need for Rapid Response.	Incident Response playbooks, SOAR platform, and Certified Incident Handlers to contain threats and watch your back!
A Partner to depend on.	A partnership that works as an Extension of Your Team, to expose patterns of illicit behaviour and reduce risks.

How Does SecurityHQ Differ?

SecurityHQ is a Global MSSP, that detects, and responds to threats, instantly. As your security partner, we alert and act on threats for you. Gain access to an army of analysts that work with you, as an extension of your team, 24/7, 365 days a year. Receive tailored advice and full visibility to ensure peace of mind, with our Global Security Operation Centres, and utilize our award-winning security solutions, knowledge, people, and process capabilities, to accelerate business and reduce risk and overall security costs.

I Threatscape

Why Choose Threatscape

We are the trusted security partner of enterprise clients who rely on us to secure critical IT assets in over 100 countries around the world. We are one of very few dedicated cyber security companies with a separate Microsoft Security Practice, and our expertise in this space is re¬flected in our status as a Microsoft Security Gold Partner and the Global Microsoft Security & Compliance Partner of the Year 2020/21.
